

SUJAN KAMBLE

Senior UX Designer | Enterprise Product Design | 13 + Years

sujankamble@gmail.com | 9890936926 | [linkedin.com/in/sujankamble](https://www.linkedin.com/in/sujankamble) | Pune, Maharashtra, India | Portfolio: sujankambleux.in

EXECUTIVE SUMMARY

Senior UX Designer with 13+ years delivering enterprise-grade digital solutions across banking, financial services, insurance, and healthcare. Proven ability to translate complex business requirements into scalable, intuitive experiences that drive measurable improvements in usability, operational efficiency, Practitioner of human-centred design from generative research and wireframing through design systems and accessibility (AA) compliant delivery. Adept at leading cross-functional programmes in Agile environments, consulting senior stakeholders, and mentoring design talent consistently recognised for strategic thinking, design capabilities, and high-quality execution in global organisations.

CORE COMPETENCIES

End-to-End UX Strategy & Delivery	User Research & Usability Evaluation	Wireframing & High-Fidelity Prototyping
Design Systems & Pattern Libraries	Interaction & Interface Design	Information Architecture
Accessibility	Journey Mapping & Service Design	Data-Driven & Analytics-Led Design
Human-Centred Design (HCD)	Design Thinking Facilitation	Cross-functional Team Leadership
Agile / Scrum Delivery	Mentoring & Talent Development	

PROFESSIONAL EXPERIENCE

Globant India Pvt. Ltd. | Senior UX Designer

April 2021 – Present | Pune, India

Domains: Banking · Finance Audit · Insurance · Pharmaceutical Manufacturing

- Owned end-to-end UX delivery across 4 concurrent enterprise programmes, discovery, user research (contextual interviews, user goals mapping, usability testing), wireframing, high-fidelity prototyping, and dev-ready handoff, across mobile-first B2C and complex platforms.
- Built design systems and pattern libraries from scratch and extended existing client systems; established token architecture, component governance, and accessibility annotations across 4+ product lines.
- Embedded WCAG 2.1 AA standards across all most all projects at component and workflow levels
- Collaborated cross-functionally with Product and Engineering in Agile sprint ceremonies to define design strategy, shape quarterly roadmap priorities, and validate interaction flows with stakeholders.
- Delivered measurable outcomes: 30% reduction in auditor task-completion time (Finance Audit); no-code configurator enabling independent setup across 4+ insurance products without developer dependency.
- Mentored junior and intern designers; led hiring panels to strengthen team capability.
- Handling 'DOJO' activities for design studio

Infosys Limited | Senior Consultant – UX Design

Jan 2020 – Feb 2021 | Pune, India

- Led discovery and UX strategy across concurrent enterprise banking and retail engagement generative research (contextual interviews, JTBD mapping), interaction design, and PoC prototyping improving scoping accuracy by ~25%.
- Synthesised research insights into validated interaction flows, prioritisation frameworks, and product roadmap recommendations for senior stake holders.

- Delivered end-to-end UX across 10+ enterprise engagements in banking, finance, and big data, wireframes, prototypes, IA models, and UI specifications reducing design rework by ~20%
- Applied information architecture and user journey mapping principles to redesign complex data-heavy financial dashboards, recognised with 3 internal design excellence awards for research rigour, interaction quality, and cross-functional collaboration on high-visibility enterprise programmes.

- Designed interaction models and information architecture for enterprise web applications, conducting user research and iterative wireframing in close collaboration with visual designers and front-end engineers.

EDUCATION

Master of Design (M.Des.): Indian Institute of Technology (IIT) Guwahati

2010 – 2012

Bachelor of Engineering, (Electronics): Shivaji University, Kolhapur

Design Internship: IDC, IIT Bombay, under Prof. Anirudha Joshi

HCI Monsoon Course: IDC, IIT Bombay, under Prof. Anirudha Joshi (Student Volunteer)

AWARDS & RECOGNITION

- **Pat on the Back Award** – Globant India (Jul 2025)
- **Pat on the Back Award** – Globant India (May 2024)
- **Best Designer for Research Projects Award** — Cognizant Technology Solutions
- **Best Designer for Research Projects Award** — Cognizant Technology Solutions
- **Digital Superstar 'DEP Dynamo' Award** — Cognizant Technology Solutions
- **Cognizant Interactive Design Excellence Award** — Cognizant Technology Solutions

TOOLS, TECHNOLOGIES & LANGUAGES

Design & Prototyping: Figma (primary), Sketch, Adobe XD,

Collaboration & Facilitation: FigJam, Miro, Confluence, JIRA

Core Skills: Accessibility · Information Architecture · Journey Mapping

Languages: English, Marathi, Hindi
